Imagine a scale from 0 to 10, where 0 stands for “strongly disagree,” 10 stands for “strongly agree” and 5 stands “neither agree nor disagree.” Where would you place yourself, from 0 to 10, in response to the following statement?

Unauthorized immigrants in the United States should have a path towards qualifying for US citizenship. (Q116)

The branch the respondent goes down from here for the next two questions depends on his or her answer to the question above. If the respondent chooses 0-4, proceed to branch #1 below. If the respondent chooses 6-10, choose branch #2 below. If the respondent chooses #5, randomize the branch he or she follows

Branch #1 (Q117, Q120-133)
Others have a different perspective. Some (Democrats/Republicans/no identifier) have argued that many unauthorized immigrants are hard-working and contribute to the economy and their communities. They suggest that denying these individuals an opportunity for citizenship would be unfair.

   A. VERY REASONABLE
   B. SOMEWHAT REASONABLE
   C. NOT AT ALL REASONABLE

Do you think this argument is worth considering a good deal, somewhat, or not at all in forming your own view on the issue?
   A. A GOOD DEAL WORTH CONSIDERING

The government’s collection of telephone and internet data is necessary as part of its anti-terrorism efforts. (Q150)

If the respondent chooses 6-9, choose branch #2 below. If the respondent chooses #5, randomize the branch he or she follows (Q151-Q165)

Branch #1

Others have a different perspective. Some (Democrats/Republicans/no identifier) have argued that government collection of telephone and internet data has made our country safer, and it is needed to stop the next terrorist attack.

A. VERY REASONABLE
B. SOMewhat REASONABLE
C. NOT AT ALL REASONABLE

Do you think this argument is worth considering a good deal, somewhat, or not at all in forming your own view on the issue?

A. A GOOD DEAL WORTH CONSIDERING
B. SOMEWHAT WORTH CONSIDERING
C. NOT AT ALL WORTH CONSIDERING

Now, I would like for your opinion again. Imagine a scale from 1 to 9, where 1 stands for “strongly disagree,” 9 stands for “strongly agree” and 5 stands “neither agree nor disagree.” Where would you place yourself, from 1 to 9, in response to the following statement?

The government’s collection of telephone and internet data is necessary as part of its anti-terrorism efforts.
